

Providing Creative Solutions to Common Problems

PROPERTY MANAGEMENT & EVICTION RECOVERY · CAPABILITIES OVERVIEW

Debt Collection Agency for Businesses

Post-eviction, unpaid-rent, damage & lease-fee recovery
for multifamily operators

Prepared for **Prime Property Management Group** · July 2026

A Texas recovery partner for the balances that walk out the door

To Sesi Yerubandi and the Prime Property Management team — you run a Texas multifamily portfolio, and the hardest dollars to recover are the ones a skipped or evicted tenant leaves behind: unpaid rent, damage above the deposit, broken-lease penalties and legal fees.

Unpaid rent isn't a management problem — it's a cash-flow problem. The mortgage, taxes, insurance and maintenance don't pause when a tenant stops paying. And once a tenant vacates, your leverage drops: they've moved on, the contact info on file is stale, and some have made themselves hard to find on purpose.

Post-move-out recovery takes what an in-house office can't sustain — **daily skip tracing, credit-bureau and Experian RentBureau reporting, and current Texas landlord-tenant knowledge** — applied persistently and compliantly across every account.

That's our lane. Southwest Recovery Services is a Texas-based property-management collection agency, working residential and commercial balances on **pure contingency since 2004**. You submit accounts through a secure portal that takes your **AppFolio** ledger export, and we work them. No recovery, no fee.

Two decades of recovery — with a strong Texas footprint

A track record built on high-volume receivables and a compliance program made for consumer (FDCPA / Reg F) tenant accounts — run from a 12-office, seven-state footprint, including six offices in Texas, exactly where your portfolio sits.

2004 Recovering rent & lease balances since	\$975M+ Receivables placed (all industries)	\$76M+ Recovered for clients	800K+ Accounts worked
12 offices across 7 states — incl. 6 in Texas (Addison HQ, Austin, Dallas, Houston, Midland, San Antonio)	RentBureau we report to Experian RentBureau + Equifax & Experian — free with placement	4.9★ Google client rating	\$0 upfront — no recovery, no fee

FDCPA / CFPB Reg F / FCRA compliant

Experian-powered skip tracing (daily)

Equifax + Experian + RentBureau reporting

Texas landlord-tenant knowledge

Contingency — no recovery, no fee

ACCREDITED & RECOGNIZED

Your four questions — answered directly

Exactly what you asked, in order, plus the details that matter for a multifamily portfolio.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
1. Contingency fee structure for multifamily & eviction collections	Pure contingency — \$0 upfront, no retainer, no monthly minimum; you pay a percentage of what we actually recover, and nothing on accounts that don't collect. For multifamily and eviction placements the rate typically ranges from 20% to 50% , set by three things: your placement frequency (how regularly you place), the volume of the initial placement opportunity, and the balance amount of the accounts placed. We confirm your rate once we see a representative sample of your AppFolio export.
2. Skip tracing skipped or evicted tenants	Experian-powered skip tracing, refreshed daily, is standard on every placement — not an add-on. When the address and phone on file are stale, we locate the tenant's current contact information across multiple data sources and work the account until we reach the right party. This is the single biggest lever on post-move-out recovery.
3. Credit bureau reporting timeline	We report qualifying accounts to Equifax and Experian — and, uniquely for landlords, to Experian RentBureau , the rental-payment database that feeds the tenant-screening reports other operators pull. Reporting follows the FDCPA sequence: after placement we send the validation notice, honor the consumer's 30-day validation/dispute window, and report verified, unresolved accounts after it closes. The collections tradeline can remain up to seven years — and the RentBureau entry follows the tenant to their next lease application. It's a strong, compliant motivator, and we include RentBureau reporting at no additional charge (see the RentBureau Advantage paper).
4. AppFolio ledger integration	Our secure client portal accepts your AppFolio ledger exports (CSV / Excel) through encrypted file exchange and bulk online placement. We map your export columns — tenant, unit, move-out date, rent, damages, fees — to our intake, so there is no manual re-keying and you can place an entire delinquency batch at once. Direct payments a tenant makes to you are logged back so balances stay accurate.
What we recover	Unpaid rent (current or former tenants), eviction balances and holdover fees, broken-lease penalties, property damage above the security deposit, utility chargebacks, HOA fees and assessments, and commercial lease arrears or early-termination balances.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
Texas footprint & compliance	Twelve offices across seven states, including six in Texas — Addison (HQ), Austin, Dallas, Houston, Midland and San Antonio. Residential tenant balances are consumer debt worked under the FDCPA and Reg F; commercial accounts under applicable state law. We do not collect consumer debt in CA, OR or WA — a non-issue for a Texas portfolio.
Timing & speed	Outreach typically begins within 24–48 hours of a documented placement; most accounts see contact within 48–72 hours. Recovery falls as accounts age, so the balances placed at move-out recover meaningfully better than ones that sit for months.
Legal escalation	For broken-lease refusals, tenants who relocated out of state, or large commercial balances, we review legal options with you — small claims, civil court and judgment enforcement — and keep working recovery alongside your counsel.

THE SWRS CLIENT
PORTAL

AppFolio-ready intake and full visibility, on demand

Every placement is managed through our secure portal at **swrsportal.com** — built to take your AppFolio exports and give your team live, self-service access throughout recovery, backed by a dedicated account manager.

APPFOLIO-READY PLACEMENT

Upload your AppFolio ledger export (CSV/Excel) or place accounts individually; we map your columns to our intake — no re-keying.

SECURE FILE EXCHANGE

Send leases, ledgers, move-out statements and damage documentation safely inside the portal, not over email.

REAL-TIME REPORTING

Run and export account and recovery reports on demand — a live dashboard, not a monthly summary.

DIRECT-PAYMENT REPORTING

Log payments a tenant makes to you directly, so balances stay accurate and no one is over-contacted.

ACCOUNT STATUS & LOOKUP

Search any account for milestones, collector notes, payment history and clear status codes.

ROLE-BASED ACCESS & MFA

Standard and manager roles with multi-factor security — built for a multi-property operator.

► Portal Video Tour

Submit the account. We work it.

A clear, six-step process from placement to resolution — the same whether it's a single skipped tenant or a full delinquency batch out of AppFolio.

1 · Account placement

Provide the tenant name, last known address, balance owed, move-out date and any contact info — or bulk-upload your AppFolio export. Outreach begins within 24–48 hours.

2 · Skip tracing

Experian-powered skip tracing, updated daily, locates current address and phone when the records on file are stale.

3 · Direct contact

We reach the former or current tenant by phone, mail and other permissible channels — professional, FDCPA- and Reg F-compliant communication.

4 · Payment options

Tenants who can't pay in full get a structured plan. More accounts resolve when there's a realistic path to zero.

5 · Credit & RentBureau reporting

Qualifying, verified accounts are reported to Equifax, Experian and Experian RentBureau after the validation window — leverage that follows the tenant to their next lease and can remain up to seven years.

6 · Legal escalation

For accounts that don't resolve through outreach, we review small-claims, civil-court and judgment-enforcement options with you.

SWRS Property-Management Case Studies

Actual placed-versus-recovered results from Southwest Recovery's property-management book, anonymized by sector. Recovery varies with account age, balance and contact-data quality — fresher, well-documented placements recover best.

NO-CHARGE
VALUE-ADD

We report to Experian RentBureau — the database landlords screen against

This is the difference-maker. Beyond reporting to Equifax and Experian, we furnish your bad-debt tenants to **Experian RentBureau** — the largest rental-payment database (9M+ residents; 3,000+ communities reporting every 24 hours), which feeds the resident-screening reports other operators pull. A skipped tenant's balance follows them to their next application. And because only FCRA-approved furnishers can report to it, most landlords can't — we do it for you, **at no additional charge**.

LEVERAGE WHERE IT LANDS

Skip tracing to find them, plus a RentBureau entry the next landlord sees at screening — the combination that actually moves post-move-out balances.

THE TEXAS CLOCK

Texas sets a four-year statute of limitations on this debt, and it can't be revived by a payment. The window is finite — place accounts at move-out, not months later.

All reporting is accurate and only after the FDCPA validation window — leverage that protects Prime from liability, not the kind that creates it. Full detail in the RentBureau Advantage white paper.

We speak your ledger

High-turnover multifamily portfolios create a specific recovery profile. Our playbook is built for exactly that.

Skipped & evicted tenants

Daily, Experian-powered skip tracing to locate tenants who moved and left the balance behind — standard on every placement.

The RentBureau advantage

Reported to Equifax, Experian and — the difference-maker — Experian RentBureau, the database landlords screen against. It follows the tenant to their next lease, and we include it at no charge.

Every balance type

Unpaid rent, damage above deposit, broken-lease and holdover fees, utility chargebacks, HOA and commercial lease arrears — one partner, one portal.

Texas footprint & law

Twelve offices across seven states — six in Texas — plus current landlord-tenant knowledge: residential under FDCPA/Reg F, commercial under state law.

Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention that trims DSO and reduces disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

Built by a collector with 30 years on the phones — not a CEO with zero collection experience

Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

“Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.”

— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services

Tenants talk, and they leave reviews. Firm, effective recovery has to stay professional and precisely compliant — no threats, no harassment, no misrepresentation. That

protects the former tenant, protects Prime's reputation with future residents, and protects you from the liability that sloppy collections create.
